

EARN EXECUTIVE

Proposal to approve section 2 of the X.25 project documentation

issued by
P Bryant
May 4, 1989

The Executive is invited to approve Section 2 of the EARN X.25 documentation (attached) which concerns the EARN policy on X.25 and international X.25 networks.

You asked for a section stating that EARN also had a policy of 'continuity of service'. This has had to be put at the end rather than in its logical position with the 'bullets' as these bullets are a copy of our policy document 3/87 and if changed they would no longer be so.

May I also draw your attention to the bullet 4 which allows coloured book and DECNET protocols which is not allowed on DEC sponsored lines. I would not like us to remove this item as I believe we may well wish to drive such protocols across all or parts of our network at some stage.
