

EARN EXECUTIVE

Information on Froncois L Leveque - Confidential to the EARN Executive

issued by
P Bryant
February 10, 1989

I have received the attached message from a possible applicant for a post with EARN. The Executive is invited to respond.

-----Original message-----

At the last EARN meeting you mentioned the plan to have some 3 staff to run a Network Management Centre in Amsterdam.

Could you tell me if there are any more details about these jobs and what the timescale would be, as I would be interested in a job in Amsterdam. I have had several years of experience in managing a departmental computing support group, and have acquired some good knowledge of networking in the process.

If you want to know a bit more about me, informally, Bob Day and other members of the Alvey Infrastructure team at RAL have known me for several years.

I would appreciate your consideration of this idea, as I think I have some qualities which would help in this job, e.g. I speak fluent French and German and feel that I could master Dutch very fast.

Thank you for your attention.

Francois H. Leveque

Dep of Computing - Imperial College
